The Fishkill Farmhouse is a harmonious blend of style and substance set against the backdrop of original wide-plank floors and hand-hewn beams. This stunning modern farmhouse, built in 1837, seamlessly combines the rich heritage of the Hudson Valley with contemporary livability and recent renovations. Its carefully preserved architectural features, including weathered beams in the kitchen and handcrafted details as seen in the wide plank wood floors, tell a story of over two centuries, while bright, open spaces create a sense of warmth and welcome. Enter through the front of the home into the bright and inviting sunroom with a beautiful bank of windows or park in your expansive driveway and enter via the inviting mudroom with access to the kitchen and back porch. With beautifully curated living spaces, the home offers three spacious bedrooms, with the option for a main-floor fourth bedroom or office connected to the main floor bathroom. The floor plan features a wood-burning fireplace in the living room and original wide-plank wood floors that flow throughout many portions of the home. The kitchen is both functional and elegant, with double sinks, soapstone countertops, and plenty of room to cook and gather. A walk-in pantry room offers ample kitchen storage. The dining room features a historic, decorative fireplace. Step outside to enjoy the enclosed back patio and garden space. The detached garage with electricity offers versatility as an art studio, office, or retreat, while upgrades

including central heating and air conditioning and a new on-demand hot water system ensure comfort and convenience in the home. The basement features overflow storage space and the washer/dryer. Situated on a near one-acre lot with a large circular driveway, the property is minutes from highways, shopping, and MTA railroad access in Beacon or New Hamburg, making it an ideal home with easy connectivity to public transit or highways. Just minutes from downtown Fishkill's dining district and 10 minutes from Beacon, this home is in the perfect location. Recent upgrades include a new septic system and new on demand water heater. The Fishkill Farmhouse is as much a part of the region's history as its rolling hills and sparkling rivers. Its carefully preserved architectural features stand as a tribute to the Hudson Valley's timelessness. This is more than a house, it's a piece of Hudson Valley history waiting for its next chapter.
